Animation loop : infinite = 0, else enter a number

Resize choice : To largest(width) picture ☒ To smallest(width) picture ☐ No ☐ To a specific size(pixels) ☐

Generate GIF

Reset ALL

Updates : You can upload pictures up to 1 Mb = 1024 Kb. The Generate Gif will have a size of 500x500 pixels max.

Larger files might just flood the bandwidth provided by our [web host](#)

You can also view another list of the most popular [web hosting companies](#)

Info : if you need to generate wider gif (more than 500x500 px) [go to superuser page](#)

Tips : To make the gif running faster, change delay time of pictures ex : 40(normal) to 10(faster) [more info](#)

see a demo ?
