

[illegible][illegible]

This technical drawing illustrates the hull and superstructure of the USS Albatross (SS-218). The ship is shown from a starboard profile view, highlighting its long, slender hull and various structural components. Key features include the mainmast at the bow, the conning tower, and the engine room located towards the stern. The drawing also shows the ship's deck, various masts, and the internal structural framework, including the hull plating and internal bracing. The ship's name, 'USS ALBATROSS', is visible on the hull. The drawing is a detailed line drawing, showing the ship's profile and internal structure.
